Appendix 13.4 Schedule of Noise Measurement Equipment

Monitoring Site Location P1 (Solo 3)

01dB-Stell Solo integrating data logging sound level meter (Class 1) (calibrated to nationally traceable standards 11 December 2007)	10712
Microtech Gefell GmbH MCE 212 ½" condenser microphone	51863
01dB-Stell PRE21S preamplifier	11447

Weather protected microphone enclosure, incorporating foam windshield and protective rain grid
All-weather protective case and battery power source

Noise Monitoring Site Location P2 (Solo 7)

01dB-Stell Solo integrating data logging sound level meter (Class 1) (calibrated to nationally traceable standards 27 May 2008)	11750
Microtech Gefell GmbH MCE 212 ½" condenser microphone	61802
01dB-Stell PRE21S preamplifier	12309

Weather protected microphone enclosure, incorporating foam windshield and protective rain grid
All-weather protective case and battery power source

Noise Monitoring Site Location P3 (SIP D)

01dB-Stell SIP95 integrating data logging sound level meter (Class 1) (calibrated to nationally traceable standards 24 April 2007)	10565
Microtech Gefell GmbH MCE 212 ½" condenser microphone	92308
01dB-Stell PRE12N preamplifier	002557

Weather protected microphone enclosure, incorporating foam windshield and protective rain grid
All-weather protective case and battery power source

Noise Monitoring Site Location P3 (second measurement) & attended measurements (SIP C)

01dB-Stell SIP95 integrating data logging sound level meter (Class 1) (calibrated to nationally traceable standards 25 July 2008)	10566
Microtech Gefell GmbH MK 250 ½" condenser microphone	3738
01dB-Stell PRE12N preamplifier	991313

Weather protected microphone enclosure, incorporating foam windshield and protective rain grid
All-weather protective case and battery power source

Noise Monitoring Site Location P4 (Solo 6)

01dB-Stell Solo integrating data logging sound level meter (Class 1) (calibrated to nationally traceable standards 02 October 2007)	10966
Microtech Gefell GmbH MCE 212 ½" condenser microphone	33525
01dB-Stell PRE21S preamplifier	11841

Weather protected microphone enclosure, incorporating foam windshield and protective rain grid
All-weather protective case and battery power source

Noise Monitoring Site Location P5 & attended measurements (Solo 4)

01dB-Stell Solo integrating data logging sound level meter (Class 1) (calibrated to nationally traceable standards 17 December 2007)	10706
Microtech Gefell GmbH MCE 212 ½" condenser microphone	57606
01dB-Stell PRE21S preamplifier	11662

Weather protected microphone enclosure, incorporating foam windshield and protective rain grid
All-weather protective case and battery power source

Noise Monitoring Site Location S7 (Solo 1)

01dB-Stell Solo integrating data logging sound level meter (Class 1) (calibrated to nationally traceable standards 11 October 2007)	10330
Microtech Gefell GmbH MCE 212 ½" condenser microphone	33494
01dB-Stell PRE21S preamplifier	10423

Weather protected microphone enclosure, incorporating foam windshield and protective rain grid
All-weather protective case and battery power source

Noise Monitoring Site Location S6 (Solo 2)

01dB-Stell Solo integrating data logging sound level meter (Class 1) (calibrated to nationally traceable standards 14 March 2008)	10705
Microtech Gefell GmbH MCE 212 ½" condenser microphone	59725
01dB-Stell PRE21S preamplifier	11464

Weather protected microphone enclosure, incorporating foam windshield and protective rain grid
All-weather protective case and battery power source

Sound Level Calibrator

ACLAN Cal01 sound level calibrator (Class 1) 11332
(calibrated to nationally traceable standards by AV Calibration, 09 October 2008)
